## COMMENTS FROM THE TOWN MANAGER'S OFFICE

The third and final meeting of the Budget Committee was held on Jan. 28th. Recommendations for 1960 total \$189,638 as compared to total appropriations for 1959 of \$184,480 or an increase of \$5,158. All appropriations excluding the school department amount to \$3,742 less than 1959. The school department increase is \$8,900 over last year. The Budget Committee is recommending that the school department's request be cut by \$600. The Budget Committee is recommending \$107,900 for schools, while the School Committee had recommended \$108,500. The difference is in the item for teachers' salaries. The Budget Committee favors a one step increase in the pay schedule of the teachers, as against two step increase recommended by the School Committee. If the Budget Committee recommendations are approved by the voters the school budget will be 57% of the total appropriations.

Even though there is an increase in appropriations it is felt that the present tax rate of 30 mills can be maintained for 1960, as it is expected that there will be an increase in taxable property of \$200,000.

The report of the 1959 audit has been received and is now on file in the Town Office and is available for public inspection.

Did anyone ever check the Treasurer's report to learn the gross dollar volume of business. The 1959 total cash receipts were \$395,980.09, with cash disbursements of \$386,297.82, leaving a cash balance on Dec. 31st of \$35,947.12.

Sincerely,  
Harold L. Bean

## SKIWAY STOCK STILL AVAILABLE

Shares in the Sunday River Skiway Corporation are still available to residents of the State of Maine according to a statement issued this week by Guy P. Butler of Bethel, Chairman of the Finance Committee; and, he added, the free skiing privileges that go with the purchase of certain numbers of shares are still available for a limited time only.

This announcement was made, Mr. Butler, stated, because there seemed to be an impression hereabout that stock was no longer available to the public.

Regarding the skiing privileges, he stated that 25 shares entitles a stockholder to a one-year pass, 50 shares—a five-year pass, 75 shares—a ten-year pass, and 100 shares—a life-time pass or the equivalent of 20 years of skiing for a family group. It was also pointed out that any present stockholder who wishes to qualify in one of the above-mentioned brackets may do so simply by adding enough shares to his present holdings; and, if he does not wish to use the skiing privileges himself, it may be assigned to any person of his choice.

Complete information may be obtained from any director of the Corporation or Thomas I. Brown of Bethel.

Candlemas Day, or "groundhog day," on Tuesday was cloudy.

Dr. and Mrs. G. L. Kneeland and Harriet were in Houghton, N. Y., over the week end where Harriet is attending Houghton College.

The Evening Extension will meet Feb. 9 at the Home Ec. Cottage. The subject of the meeting will be Food for Fitness, with Lyndell Carter as leader.

Decision to establish this club results from a meeting of several interested parents with Nils Torjensen, Ski Director at Sunday River, at the home of Mr. and Mrs. Murray Thurston two weeks ago. At that time Mr. Torjensen outlined the possibilities and advantages of having an active junior ski club here and urged that one be formed as soon as practical.

Each member will be issued a shoulder patch insignia identifying the wearer as a member of Sunday River Junior Ski Club. Although not practical for this season, the club itself will be an official member of the EASA next season. Such membership will entitle it and its members to all notices of other junior ski clubs' competitions, advisories on latest ski technique and other up-to-date information on the activities and interests of other junior ski clubs throughout the U. S. and Canada as well as in foreign countries. In addition to giving the younger skiers the advantage of... continued on Page Four

## CHAMBER OF COMMERCE STUDIES TOWN BUSINESS —COMMITTEES NAMED

The Bethel Chamber of Commerce held its regular meeting at the West Parish Congregational Church Tuesday where a chicken pie dinner was served by Circle 5 of the Women's Fellowship under the direction of Marjorie Barker. Thirty-six members were present.

The new president, Murray Thurston, presided, and called on John Carter, secretary-treasurer, to introduce the speaker. This being the annual meeting for the review of the proposed 1960 Town Budget, Mr. Carter asked Harold Bean, Town Manager, to present and discuss the items in the budget. He was followed by Fire Chief McMillin who commented on the condition of the fire station building. Both Mr. Bean and Mr. McMillin called attention to the need for a new more fireproof structure, which could be planned to provide space for the town offices as well as Community Room and associated facilities.

Supt. of School Donald Christie explained in detail the items which make up the school portion of the town budget. An interesting question and answer period was concerned mainly with various school expenses, teacher salaries, and transportation.

President Thurston set up new committees as follows: Finance Committee—Wilbur Myers, Richard Bryant, Henry Hastings; Program Committee—Gene Van, Thomas Brown, Wallace Saunders, Charles Keoske, Wilbur Myers; Membership Committee—Edmond Vachon, Burton Newton, Maurice Kendall.

The Chamber of Commerce went on record as approving the formation of the new Junior Chamber of Commerce. It is hoped and expected that the younger men of the town can do much for the community and that both organizations can attain full cooperation with each other for the benefit of the town.

# STEP OUT IN IT

Get the quiet proof of Chevrolet's superior performance on the road—No other car in the low-priced three can match the borne-on-the-wind sensation you get from a ride in the 1960 Chevrolet. But that's not surprising when you consider to what lengths Chevy has gone to provide for your comfort at no extra cost to you. As you drive, count the ways Chevrolet has been thoughtful:

**Supple Full Coil suspension**—Coil springs at all four wheels melt bumps as no other suspension can. Taking the punch out of rough roads is their only function—they don't have to anchor the rear axle.

**Eutyl rubber body mounts**—Thicker, newly designed body mounts

further insulate you from the road.

**Body by Fisher**—Only Chevy in its field offers the polish and craftsmanship of Body by Fisher.

**Foam cushioned seats**—Chevy offers foam cushioned seats in both front and rear in all series but one.

**Safety-Girder frame**—X-built and not merely X-braced, the Safety-Girder frame affords greater rigidity to minimize twisting and squeaks.

**Hydraulic valve lifters**—Oil hushed hydraulic valve lifters reduce engine noise to a whisper.

**Cushioned steering shaft**—A universal joint and cushioned coupling keep those annoying road tremors from the steering wheel.

**Precision balanced wheels and tires**—Here again Chevy has shown concern for your comfort by eliminating vibration in this vital area—tire life is longer, too.

**Easy steering ratio**—Chevy's high ratio Ball Race steering takes the work out of steering for you.

**Superior weight distribution**—Chevy rides better, handles better and stops better because the car's weight is more equally divided between the front and rear wheels.

**Wide choice of power teams**—Choose from 24 different power combinations to satisfy the itchiest driving foot—more than any other car.

Now—fast delivery, favorable deals! See your local authorized Chevrolet dealer!
